

ADHISH KUMAR VERMA

FULLSTACK DEVELOPER

✉ v.adhish16@gmail.com ☎ 8527357371 📍 Noida, India 🌐 adhishVerma

Profile

As a self-taught programmer with a strong passion for technology, I am confident in my ability to contribute to your team. I have consistently sought out opportunities to learn and improve my skills, including through online courses and personal projects. These experiences have allowed me to gain a strong foundation in JavaScript and Python. I have experience collaborating with cross-functional teams and have a strong ability to communicate effectively with both technical and non-technical stakeholders.

Projects

Issue-tracking application

- You can make teams, and projects and work on the issues together while monitoring them in real time.
- Built with MERN stack, with authentication and MVC design pattern.
- Set up middleware for every request to be authorized and proper error handling.

Car listing website

- A freelance project to allow users to list their cars for sale, with a user base of roughly 5,000 users.
- Used NextJS (for SSR, ISG), and Firebase according to client's needs.
- Added a blog section using a cms to drive organic traffic.
- Collaborated in a team of 3 to deliver on time.

Disney+ Clone 📄

- A movie tracking web app that gives you all the current trending movies, and you can add them to your watchlist.
- made different sections to track different varieties of shows over all platforms.
- Built with ReactJS, and Firebase(for authentication and data storage).
- Used zustand for state management and to persist logged-in state.

Skills

MERN stack (Developed and maintained multiple full-stack web applications using the MERN stack (MongoDB, Express.js, React, and Node.js),

Python (Can work with python under various scenarios and is my preferred language for various tasks),

HTML, CSS, JS (Proficient in HTML, CSS, and JavaScript(ES6) for front-end development.),

Firebase (Implemented real-time data synchronization and authentication using Firebase),

Git/Github (Experienced in using Git for version control and collaborating with team members),

NextJS (Can work with NextJS to scale modern sites, have an understanding of SSR, SSG and SEO friendliness.)

Education

B.Tech (Civil Engineering), GGSIPU

2020

Took courses on engineering mathematics along with Numerical analysis and statistical techniques.

New Delhi, India

Certificates

Backend Development and APIs certificate
freecodecamp.org

Front End Development Libraries
freecodecamp.org
